

Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

# PITHIA-NRF

**Sfeervol wetenschappelijk frequentiegebruik  
(thermosfeer, ionosfeer en plasmasfeer)**

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

## Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

### Ben Witvliet

University of Twente, The Netherlands  
Faculty of EEMCS, Radio Systems group

b.a.witvliet@utwente.nl | +31 6 1219 0688

&

Ministry of Economic Affairs & Climate, The Netherlands  
Radiocommunications Agency, Spectrum Management dept.

ben.witvliet@agentschaptelecom.nl | +31 6 5124 8341

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

## Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

### Hoe ben ik hier terecht gekomen?

Ik heb in diverse landen gewerkt, in telecom en omroeptechniek  
Sinds 1998 werk ik voor Agentschap Telecom

Van 2011-2015 heb ik promotieonderzoek gedaan (part-time)

Van 2017-2019 gewerkt aan de Universiteit van Bath, Engeland (part-time en forens)  
als Research Manager Radio Science

Daarna bewust part-time blijven werken en  
op zoek gegaan naar research funding voor de andere helft

Sinds 1 April 2021 Europese funding,  
daarmee een aanstelling aan Universiteit Twente verdiend  
als Post Doctoral Researcher

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

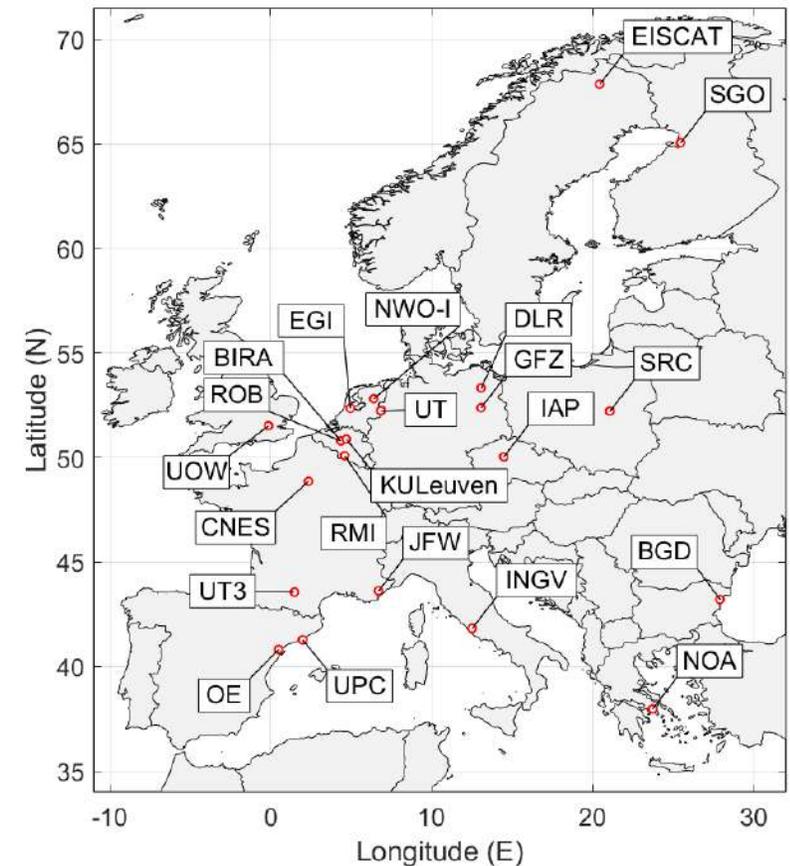

# Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

## In goed gezelschap

Ons project omvat de meeste (alle) grote Europese instituten die zich bezig houden met de Thermosfeer, Ionosfeer en Plasmasfeer

- **BGD**, Borealis Global Design, Varna, Bulgaria
- **BIRA**, Royal Belgian Institute for Space Aeronomy, Uccle, Belgium
- **CNES**, Centre National d'Études Spatiales, Paris, France
- **DLR**, German Aerospace Center, Neustrelitz, Germany
- **EGI**, EGI Foundation, Amsterdam, The Netherlands
- **EISCAT** Scientific Association, Kiruna, Sweden
- **GFZ**, German Research Centre for Geosciences, Potsdam, Germany
- **IAP**, Institute of Atmospheric Physics, Leibniz, Germany
- **INGV**, Istituto Nazionale di Geofisica e Vulcanologia, Rome, Italy
- **JFW**, Jurgen Watermann Consult, La Tourette, France
- **KULEUVEN**, Katholieke Universiteit Leuven, Belgium
- **NOA**, National Observatory of Athens, Greece
- **NWO-I**, Nederlandse Wetenschappelijk Onderzoek Instituten, Dwingeloo, The Netherlands
- **OE**, Observatori de l'Ebre, Roquetes, Spain
- **RMI**, Royal Meteorological Institute, Dourbes, Belgium
- **ROB**, Royal Observatory of Belgium, Brussels, Belgium
- **SGO**, Sodankylä Geophysical Observatory, Oulu, Finland
- **SRC**, Space Research Centre, Warsaw, Poland
- **UOW**, University of Westminster, United Kingdom
- **UPC**, Universitat Politècnica de Catalunya, Barcelona, Spain
- **UT3**, University Paul Sabatier, Institute for Research in Astrophysics and Planetology, Toulouse, France

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

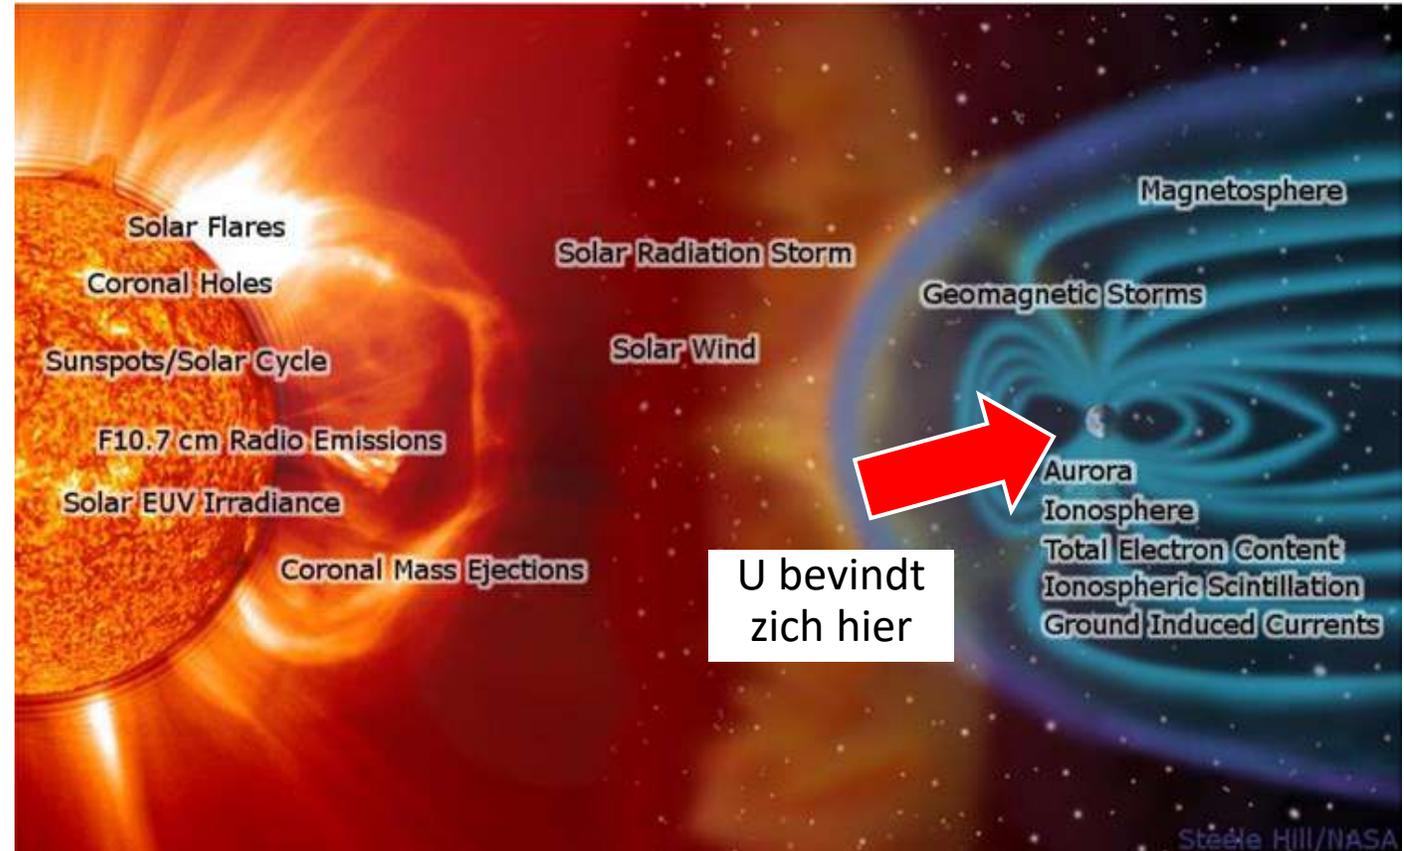

## Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

### Onderzoek in hogere sferen

We doen onderzoek naar:

- De relatie van de aarde met de zon
- Ruimteweer en ruimteklimaat (space weather / space climate)

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

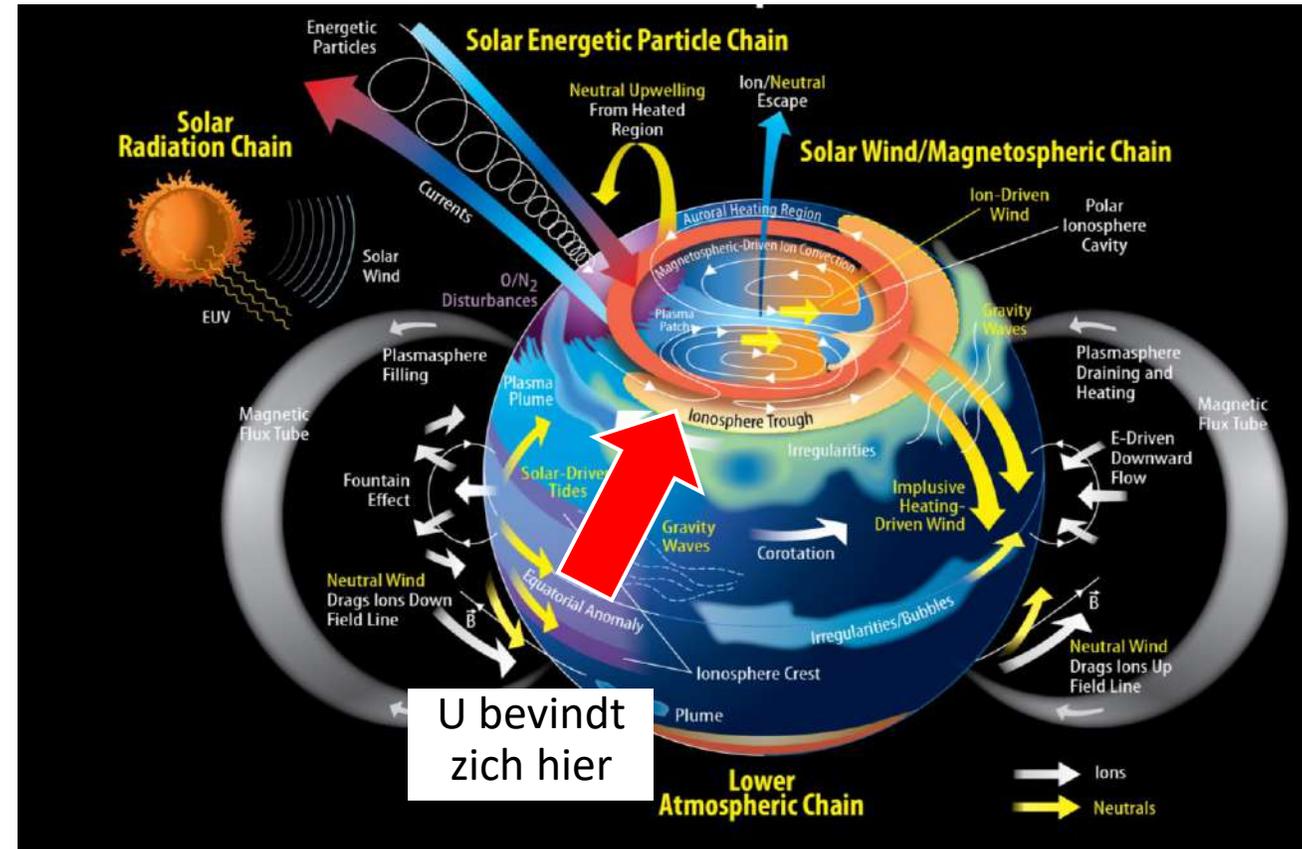

## Onderzoek in hogere sferen

We doen onderzoek naar:

- De relatie van de aarde met de zon
- Ruimteweer en ruimteklimaat (space weather / space climate)

*Voor als je het te voorgaande te simpel vond ...*

## Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

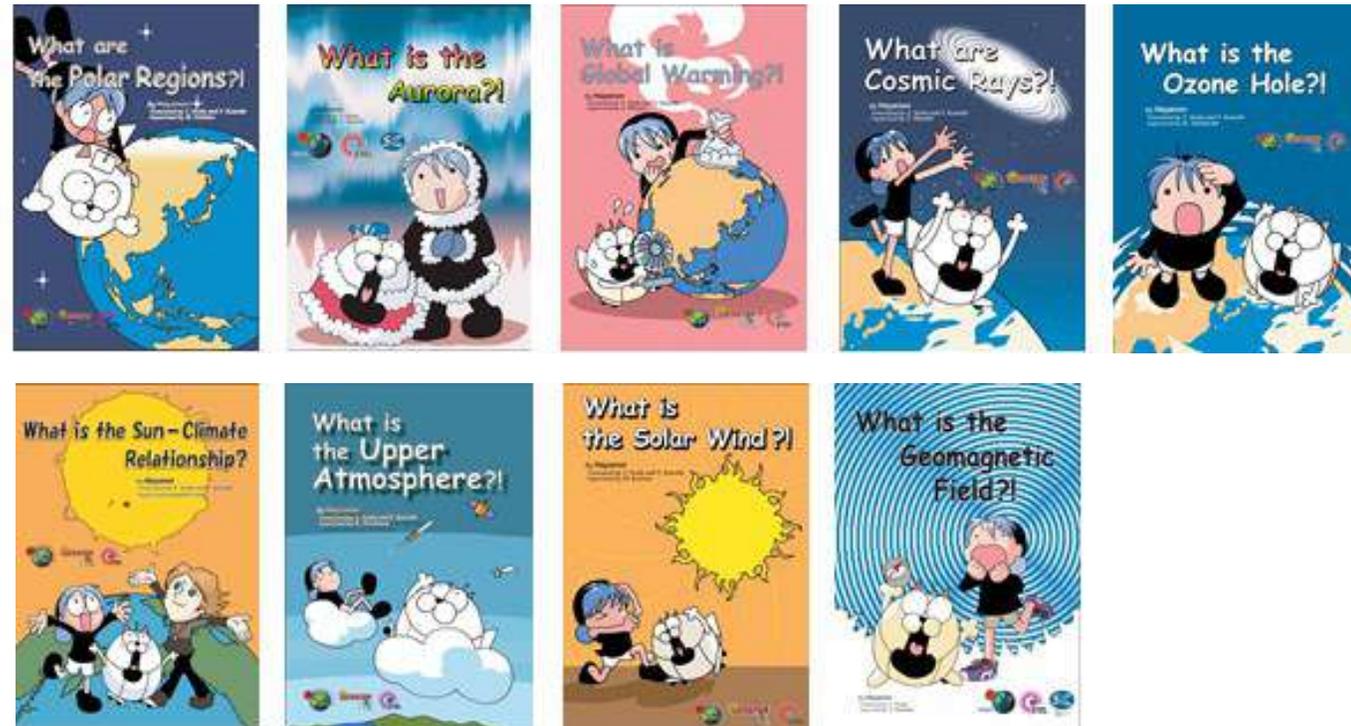

### Onderzoek in hogere sferen

We doen onderzoek naar:

- De relatie van de aarde met de zon
- Ruimteweer en ruimteklimaat (space weather / space climate)

*Of als je het juist te moeilijk vond ...*

<https://pithia-nrf.eu/activities-results/outreach/outreach-material/space-weather-comic-books>

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

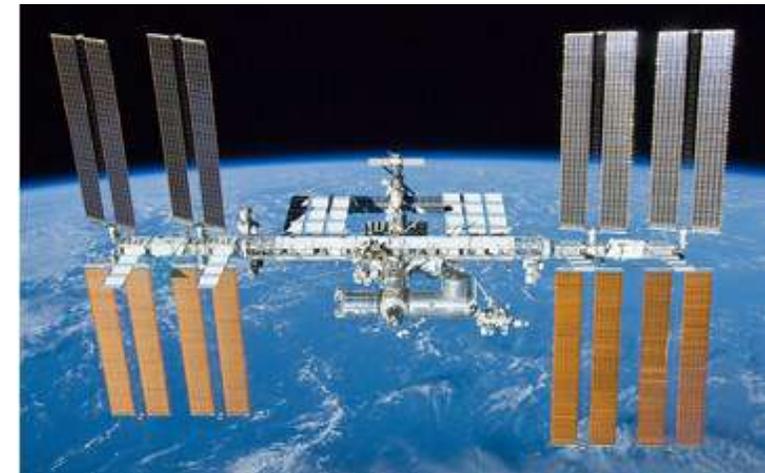

## Plasmasphere Ionosphere Thermosphere Integrated Research Environment and Access services: a Network of Research Facilities

### Onderzoek vanwege

- Ruimtevaart en luchtvaart (stralingsblootstelling)
- Bescherming satellieten (zonnwind en atmosferische 'drag')
- Navigatie voor luchtvaart, scheepvaart, transport en landbouw (scintillatie)
- Kortegolf radioverkeer (propagatievoorspellingen en verstoring door zonnevlammen)
- Koppeling met het gewone weer op lagere hoogten
- Wetenschap: proberen te begrijpen, modelleren en voorspellen

The PITHIA-NRF project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101007599

## Onderzoeksapparatuur

- All-Sky Imager
- Continuous Doppler Sounder
- Cosmic Ray Detector
- Electric Field Mill
- GNSS Receiver Network
- Incoherent Scatter Radar
- Infrasound network
- Ionosonde
- Magnetometer
- Meteor camera
- Meteor radar
- Research satellites
- RIOmeter
- VLF receivers

## Outreach to specific communities: ITU

The International Telecommunications Union (ITU) is the world-wide organization that manages the frequency spectrum. This includes the frequencies used by our scientific instruments.

Currently the ITU works on the “Working document towards a draft new fascicle on RF techniques to retrieve ionospheric parameters”.

We have offered to contribute to this document. [UT lead]
